

Post-Operative Instructions

Elbow ORIF

WOUND CARE

- DO NOT REMOVE SPLINT.
- Keep splint clean and dry.
- Swelling in the hand and wrist is common.

ACTIVITY

- Use the sling for comfort.
- No lifting.
- You are to be non-weight bearing of the affected extremity.

PAIN MANAGEMENT

- TAKE PAIN MEDICATION AS PRESCRIBED ON THE BOTTLE.
- If you have used a particular pain medicine (Percocet or Vicodin) that has worked well for you in the past, please inform your physician or PA prior to the procedure.
- For instructions on refilling a prescription, please read our **Prescription Refill Policy**.
- Use Ibuprofen (ex. Advil) 200-800mg up to four times per day to help with pain and swelling in addition to narcotic pain medicine. **(Do not exceed greater than 3200 mg of Ibuprofen daily)**
- Call the office if you continue to have uncontrollable pain.
- If you are taking narcotic pain medication (Percocet or Vicodin), we recommend an over-the-counter stool softener, such as Docusate or Milk of Magnesia, to prevent constipation.

EMERGENCIES

Call the office at (401-218-6005) if you experience the following:

- Pain uncontrolled by pain medicine
- Uncontrollable bleeding
- Fever > 101 ° F or shaking chills
- Difficulty breathing or chest pain
- Painful swelling no improved by elevating and icing.

FOLLOW-UP CARE/QUESTIONS

- You should have a post-operative appointment scheduled 2 weeks after your surgery. If not, please contact the office to schedule an appointment (401-218-6005).
- Please arrive 30 minutes prior to your appointment to allow ample time for x-rays.
- The splint is to remain on until your post-operative appointment. At that time, we will remove the splint and examine the incision.

Prescription Refill Policy

401-218-6005

Our office requires **72-hour business hours for all prescription requests**. We are unable to write prescriptions on an emergency basis, so please monitor your medication carefully. Do not wait until you are completely out of medication to request a refill. We process requests in the order they are received.

Your request requires **one clear and detailed message on 401-218-6005**, with your full name, date of birth and best contact information. You will receive a call back the day before your script will be made available to you. **If you have not received a call or voicemail, your request has not been processed.**

PLEASE NOTE: If you are currently being followed by another doctor for pain medication, please have an open line of communication with their office, as we do not prescribe for long-term pain management. We will only prescribe to patients for a short period of time after surgical procedures. If you feel as though you will need to continue to take controlled medications after our treatment is complete, you will be referred back to the existing prescriber or a pain management facility.

Thank you in advance for your patience and cooperation.
